**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 12, 21, 28, and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation "said information packet helps define one of said devices as a master device for said network" is vague and indefinite because it is unclear how does the information packet help define one of the devices as a master device. It is also unclear of the relationship between information packet and a master device.

3. Claims 1, 12, 21, 28, and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation "resolving status of said first device coupled to said network" is vague and indefinite because it is unclear how to resolve the status of said first device coupled to the network.

4. Claim 1-49 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
